## LEADING LADY IS SKILLED GARDENER

Gertrude Hayes Tells of Horticultural Delight At Summer Home.

Imagine a prima donna plying a hoe with the same efficiency she employs in putting song and dance over the footlights, and you have a conception of the summer hobby of Miss Gertrude Hayes, dainty headliner in "Follies of the Day" at the Gayety Theater this week.

"I love the footlights, but, oh, you radish patch!" is the way Miss Hayes expressed today her delight over the prospect of returning to her garden and the plain life when her theatrical engagement comes to a close, in June.

She doesn't have the time most folks have to tend gardens and grow things to eat, but if you don't believe her garden is the best to be found in Teaneck, N. J., you have her challenge to drop off the train there and in-spect the garden spots of the village. "It's like this," Miss Hayes says, "In the spring I have some one to plant my garden-lettuce, melons, radishes, peas, potatoes and the like. Then, when the show season is ended, I run home and tend the garden. You should see it. It's quite wonderful.
"It'll be nicer this spring. They're making overalls for women, and

won't that be great?
"I work my garden early and late.
Often I go out and hoe by moonlight
and pull weeds. That's great fun and splendid exercise.

"I cultivate flowers, too. "My front yard is full of them, and you should see the pet roses and lilies I grow when I'm off the stage."

## **NETS TRAP MOST "SUBS."**

Grenades Also Thrown When Trail of U-Boat is Seen.

PARIS, March 7.- Raymond Leston nat, an authority on submarines, writing in L'Illustration on the destruction of enemy submarines, says: There are two means of destruction, by trapping them and by explo-sives. The trap is formed by a net anchored in a passage or channel to prevent entrance to a port or road-stead. In some cases when a locality is not suited to a permanent barrier light nets are towed by boats, which

thus, as it were, patrol the depths.
"Nets give good results. The Eng-lish have caught a large number of small submarines by using them. But placing them in position and keeping them in repair (they deteriorate rap-idly) demand a large number of men. a considerable amount of floating ma-terial and much time. The use of nets, however, is still being continued and increased.

"Explosives, mines, shells, and tor pedoes are in general use against sub-marines. Mines aid in fixed defense, as nets do, but while nets sometimes

let their prey escape, a mine, if touched, never does. "The shell is used for great dis-tances, but to sink a subumarine it is almost essential to surprise it at close range when on the surface and to have the good luck to hit it within a minute, for it only needs one minute to disappear beneath the water.

"An ordinary torpedo is not of much use, being made for attacking s ship sailing on the surface and so having a horizontal trajectory and moving through the water at too slight depth.

"Navy aeroplanes for submarine search work have for some time been supplied with bombs, which are dropped when submarines are moving just below the surface or wher the weather conditions and the clear-ness of the water allow them to be seen when below. Several subma-rines have been sunk in this man-

## KENTUCKIANS BACK WILSON

State Senate Calls the Filib "Traitorous and Cowardly."

FRANKFORT, Ky., March 7 .- The State senate has passed a resolution condemning the action of the United States Senators who prevented a Senite vote last week on the armed ship

The preamble recites that "certain un-American, disloyal, unpatriotic, traitorous, and cowardly Senators, namely, Clapp, Cummins, Gronns, Kenyon, La Fellette, Norris, Works, Kirby, Lane, O'Gorman, Stone, and Surplus Vardaman, took advantage "of Sena-torial courtesy and Senate rules" and Total

making earnest efforts to bring the United States into war with Japan; that they knew the United States was swarming with Gorman spies and that bridges and munition plants were being ruthlessly destroyed, "not knowing how soon plots would be un-covered to assasinate our President, destroy our navy yards and military stores, sink our ships, and otherwise numiliate and discredit us among the lations of the earth."

The resolution condems the "outra-

geous action" of the Senators named as "unmanly, unpatriotic, un-Ameri-can, unparalleled, and unwarranted." It commends 'the patriotic members of both branches of Congress," who stood with the President in showing hat, "while we may have isolated ases of Toryism, as in revoluntion that. ary days, we are as true to our country as were the heroes of the

American colonies."
It concludes with a message that
"While Kentucky is for 'peace with
honor.' she pledges the flower of her manhood as her guarantee that she will help defend the flag and liberty of our great country."

BARS PACIFISTS FROM SCHOOLS MADISON, Wis, March 7.—Use of Madison's public schools for peace propaganda was denied by the school board today. No one had applied for permission to hold a peace meeting and the step was taken merely as a present to the step was taken merely as a

precautionary one.
Action of Senator La Folistic in opposing President Wilson's armed neutrality bill was indorsed today by St. Michael's Society of the Holy Re

deemer Church.
A joint resolution condemning La Follette will come before the State
